1. Getting Started — Install the App

iPhone (Safari):

Step 1	Open Safari browser on your iPhone
Step 2	Type this URL: sales.satyamgroup.info and press Go
Step 3	Wait for the app to fully load (first load may take 10 seconds)
Step 4	Tap the Share button ↑ at the bottom of Safari
Step 5	Scroll down and tap Add to Home Screen
Step 6	Name it Satyam Sales → tap Add
Step 7	Green icon appears on your home screen — tap it to open the app anytime

Android (Chrome):

Step 1	Open Chrome browser on your phone
Step 2	Type: sales.satyamgroup.info and press Enter
Step 3	Tap the ■ three-dot menu (top right)
Step 4	Tap Add to Home Screen → Name it Satyam Sales → tap Add
Step 5	Icon appears on home screen

■■ Always open the app from the home screen icon — not by typing the URL each time.

2. Your Daily Workflow

Follow this sequence every day in the field:

Morning	Open app → Home screen loads automatically
At customer	Check In → fill details → take shop photo → Save
During meeting	New Quote → select products → share PDF via WhatsApp

Any time	Price List tab → view full price list or share it
End of day	History tab → review all your quotations

3. How to Do a Customer Check-In

Check-in marks your visit and captures customer details.

Step 1	Tap Check In on home screen or bottom navigation
Step 2	Type customer name — if visited before, select from dropdown to auto-fill all details
Step 3	Fill: Mobile, City, GST Number (optional), Contact Person (optional)
Step 4	Tap Shop Photo box → camera opens → take photo of the shop — COMPULSORY
Step 5	Tap Visiting Card box (optional) → photo if customer gives a card
Step 6	Add Visit Notes — what was discussed, needs, follow-up date
Step 7	Tap Save Check-In → GPS captures automatically → visit saved ■
■ Shop photo is mandatory. App will not save without it.	

4. Creating a Quotation

Step 1	Tap Quote on bottom navigation
Step 2	Type customer name or select from dropdown → city and mobile auto-fill
Step 3	Select Discount Mode : Overall Discount OR Item-wise Discount
Step 4	Tap Select Product dropdown → choose item → tap + Add
Step 5	For Mats/Bags : Enter number of bundles → total pcs calculates automatically
Step 6	For Rolls : Width auto-fills → enter customer's required Length in Ft only
Step 7	Add discount per item if needed (tap % Add Item Discount)
Step 8	Repeat for more products
Step 9	Review totals → tap Preview & Generate Quotation
Step 10	Review → tap Share via WhatsApp

How Roll Calculation Works:

Item	Width	Customer Length	Rate/SqFt	Amount
4 Ft Rolls - Eco DC	4 Ft	50 Ft	■2.25	4 × 50 × 2.25 = ■450
5 Ft Rolls - Anjali	5 Ft	30 Ft	■4.00	5 × 30 × 4.00 = ■600

5. Sharing Quotation via WhatsApp

On Android:

Step 1	After preview, tap Share via WhatsApp
Step 2	Android share sheet opens → tap WhatsApp → select customer → Send

On iPhone:

Step 1	After preview, tap Share via WhatsApp
Step 2	Print dialog opens → tap Share → Save to Files → Save
Step 3	WhatsApp opens automatically → select customer → Attach PDF → Send

6. Price List — View & Share

Step 1	Tap Price List in bottom navigation
Step 2	Full list shown with standard packing and pre-GST prices
Step 3	To share: type Customer Name and City at the top → tap Share Price List as PDF
Step 4	Personalised price list PDF opens → share via WhatsApp

7. Quotation History

Step 1	Tap History in bottom navigation
Step 2	All your quotations shown — most recent first
Step 3	View — see full quotation Edit — change and regenerate &n

You see only your own quotations. Head Office sees all reps.

8. Important Rules

Rule	What to Do
Shop photo	ALWAYS take shop photo — app will not save without it
Bundles only	Quotation is in full bundles only — no partial bundles
Browser data	NEVER clear Cookies and Site Data — your data will be deleted permanently
History only	Clearing browser history is OK — does NOT affect your data
Internet	App works offline but needs internet to first load and to share
Updates	When app updates, just reopen — all your data stays safe automatically

9. Quick Do's and Don'ts

■ DO	■ DON'T
Open app from home screen icon	Open by typing URL every time
Take shop photo at every visit	Skip the shop photo
Enter customer mobile number	Leave mobile blank — needed for WhatsApp
Clear browser history freely	Clear cookies / site data / all data
Add notes about the customer visit	Leave notes blank — they help with follow-up

10. Troubleshooting

Problem	Solution
App not loading	Check internet → refresh page
Check-in not saving	Make sure shop photo is taken — it is compulsory
GPS shows not available	Allow location: Settings → Safari/Chrome → Location → Allow
WhatsApp not opening after PDF	iPhone: find PDF in Files app → long press → Share → WhatsApp
Product dropdown empty	Contact Head Office — price list needs to be imported

App shows blank screen	Close app completely → reopen from home screen icon
Need the training guide again	Tap ■ Help button inside the app — guide opens directly
